

- **Equipment Repair Services Electronic, Hydraulic and Mechanical** AES has provided the industry's most reliable electronic evaluation & repair services for over 27 years. Printed Circuit Boards, Encoders, AC/DC Drives and Motors, Medical Equipment, Monitors/Touch Screens, Light Curtains, Servo Motors, Spindles, Power Supplies, Temperature Controls, Inverters, Regulator Controls, Programmable Logic Controls (PLC), Hydraulics, Pumps/Vacuum Pumps, Gear Reducers, Hoist & Crane Motors, Access to Rare & Obsolete Parts, Manufacturing & Assembly Services, Inventory Management, Engineering. Free Evaluations & Quotes, Fast Turnaround Time, Fair & Competitive Pricing, High Quality Workmanship, OEM Factory Trained Technicians, Scheduled Pickup and Delivery and More. www.aesintl.com
- **Equipment Repair, Refurbishment, & Design-Build Services – Metals Industry & Manufacturing Applications** Fast, reliable turnaround on repairs to OEM or "OEM Plus" condition at competitive rates. Glunt Industries has been serving North America's top steel and aluminum mills, aggregate plants, mining and manufacturing industries with the most complete and largest-scale fabrication and machining center in the U.S. for more than 50 years. Engineering, Reverse Engineering, CAD 3D Modeling & Printing Capabilities, 24/7 Emergency Break-Down & Rush Services. We work effectively to offer unparalleled fabrication and machining services, and that includes responding to your needs, regardless of the time of day. www.glunt.com
- **Conveying – Dense Phase Pneumatic Conveying Systems** From the inventors of Dense Phase Pneumatic Conveying, for the most efficient handling of everything from raw to fragile, finished materials. Increase tonnage moved per hour vs Dilute Phase. Eliminate all the moving parts & environmental problems of open belt conveyors. www.macawber.com
- **Expansion Joints & Dampers** Hunter's engineers apply in-depth knowledge & understanding of the applications their products are used in to provide fast, effective solutions for all your Expansion Joint Challenges. *Ductwork Expansion Joints* in Fabric Belt & U-Flanged, Fabric Convuluted & Metal Fabricated. *Piping Expansion Joints* in Metal Bellows Formed, Rubber Molded, Teflon-lined Metals, & Formed Teflon Pump & Equipment Couplings. *Dampers* Virtually any style and size industrial damper in Carbon, Stainless or Custom Alloys, Refractory Temperatures. Actuators – shop or field installed. Direct provider of Viton® Sheet Gasket Materials www.hunterexpansionjoints.com
- **Filtration Upgrades for Steam, Vacuum & Compressed Air Systems.** Sanitary Grade or Sterile Grade Filtration in Food & Dairy, Beverage, Brewing, Pharmaceutical & other Industries needing High Purity Filtration. Modular Designs with simple reconfiguration to suit changing needs, Unique low PSI Sub-micron systems, Lenticular Filters. Using superior filtration technology & no-compromise designs we make compressed air, vacuum, and steam filtration for all industries affordable, efficient, and reliable. Standard & custom designs, In-house engineering support. www.microdyneproducts.com

- **Fluid Purity Systems for Lubrication, Electrical Transformers & Fuel Systems** From single vessels and skid packages to semi-trailer size filtration trains, Henek Fluid Purity Equipment is known worldwide for its superior performance, robust reliability, and outstanding value. Oil Vacuum Dehydrators, Turbine Oil Conditioners, Turbine Oil Polishers, Portable & Stationary Filter Vessels, Separator Vessels, Filter-Flush-Heat Systems. Lease & Rent-to-Own Options from the largest and best maintained fleet of oil purification equipment in the industry. Parts & Filter Elements for Gulfgate & most OEM makes www.henek.com
- **Industrial Ovens** for Aging, Annealing, Baking, Composites, Curing, Drying, Finishing, Heat Treating, Normalizing & Stress Relieving. Products include Batch Ovens, Conveyor Ovens, Drum & Tote Heaters, Hot Boxes, Drum Heating Tunnels, High Temperature Furnaces, large Field Assembled Ovens. LEWCO Industrial Ovens are times tested and proven energy efficient, durable, and reliable. Working from our vast library of completed product designs we can customize industrial ovens and oven-conveyor combinations to your specific requirements to create a custom solution at a cost-effective price. www.lewcoinc.com
- **Magnetic Systems** for conveying, sorting, & bulk materials handling, MSI is a respected leader in the design and manufacture of magnetic systems for the Agricultural, Recycling, Mining, Pharmaceutical, Food Processing and Aggregate Industries. State of the art designs and premium grade materials improve your processes, product safety, & protect expensive downstream equipment & limit downtime. www.msimagnets.com
- **NOx Reduction to 98% for Power Plants, Cement Factories, Waste Incinerators, Co-generation, Biomass Plants, Livestock & Poultry Waste-to-Energy Applications.** YARA's NOxCare® Team is a world leader in designing, building, installing and maintaining Selective Catalytic Reduction (SCR) & Selective Non-catalytic Reduction (SNCR) systems with more than 1,300 completed NOx control systems worldwide. YARA's engineers apply their in-depth knowledge of the processes which generate NOx Emissions in your industry to work with you in providing a solution tailored to your needs. Quality & reliable supply of reducing agents required for effective NOx reduction is critical to a successful operation. YARA produces one-third of the worlds Natural Gas based Ammonia and Urea via our network of 30 plants and 200 terminals and warehouses, assuring you of quality and a constant supply. www.yara.com
- **Oil Skimmer's** floating-tube skimmers, more efficient & reliable than Rope, Mop or Belt skimmers in removing floating oil, fats & greases. State of the art weir type separators & systems for removing oil from process or wastewater, prolonging life of wash solutions, recovering coolants and lubricating oils. Improve environmental compliance & reduce your operating costs. Standard or Engineered Systems with excellent lead times. Oil Skimmer's Inc has been providing their exceptionally long-life, nearly maintenance-free solutions for 50 Years www.oilskim.com
- **Production Monitoring & Actionable Data in Real Time** The Industrial Metric® System collects data from key process steps determined by you, to monitor operations real time & notify personnel by text, e-mail, warning lights or alarms within seconds of a process deviating from the plan, providing time to make corrections and maintain schedules & productivity. View your Operations Dashboard from anywhere. Sensors are self-contained, requiring no facility modifications, special connections, power drops, ethernet connections or cabling. Data sent via 4G encryption to major cloud providers is independent of your internal systems & provides security from ransomware. 100% U.S Owned/U.S. Based <https://www.industrialmetric.com>

- **Process Temperature Control** for molds, dies, tooling, tanks, jacketed vessels, mixers, extruders, heat transfer rolls and more. Full line of American Made, competitively priced Water and Oil Temperature Control Equipment, and Portable Air or Water Cooled Chillers to fit all process needs, with temperature control ranges from 20°F (7°C) up to 650°F (343°C). Industry leading Variable Speed 1 to 60 Ton Air or Water Cooled Chillers with up to 50% energy savings for rapid return on investment, providing accurate and reliable temperature control to +/- .5°F, years of unmatched performance & Industry 4.0 Technology. We excel at custom designs for special processes and applications. www.deltatsys.com
- **Rotary Airlocks/Rotary Valves** Rotary Airlock LLC is the only Rotary Airlock Manufacturer to offer *Drop-In Replacements* across ANY Make, Model, & Size, designed and engineered to your needs. No matter which brand you currently use, ours will deliver on our promise of reliability, safety, and matching your application. *Seal Conversions* reduce the 4-6 hours of downtime & extensive labor to replace an airlock seal to as little as 15 minutes. With the Mechanical Aerated Polymer Seal System (MAP Seal) there is no need to pull an airlock or remove an end-cap *Direct Drive Conversions* eliminate the hazards and maintenance of chain drives. *Standardization* Rotary Airlock can standardize your valves to have, 1 bearing, 1 seal, and 1 configuration so no matter what valve your team works on, maintenance is the same and inventory is shrunk to 1/3 of its current state. *Safety – Eliminate Combustible Dust Leakage & Chain Drives* NFPA drop-in replacement valves that meet, and exceed NFPA standards — paired with a proprietary seal system that eliminates combustible dust leakage, AND a direct - drive available for every make & model. Rotary Airlock is dedicated to making the safest dust-collection airlock valves in the industry. www.rotaryairlock.com
- **Removable, Reusable Blanket Systems for Thermal and Acoustic Applications** Site-measured, CAD Designed, Factory-made INSULTECH® Thermal blankets save 82 to 90 percent of thermal steam energy versus bare pipe and fittings, reduce Greenhouse Gas Emissions and eliminate Burn Hazards. Acoustic Blankets can reduce nuisance noise by as much as 50% or more. Services include Investment-grade Energy or Acoustic Surveys, plus optional Turn-key installations. We achieve excellent re-installation of blankets by your personnel through Shannon’s I.D. Tagging & Record Archive System. www.shannonglobalenergy.com
- **Thermal, Vacuum & Vent Systems** Optimize your capital and operating costs. Graham has been a world leader in engineered vacuum & thermal solutions since 1936, including Condensers & Vacuum Systems, Cryogenic Heat Exchangers, Desuperheaters, Heliflow® Heat Exchangers, Liquified Gas Vaporizers, Lube Oil Coolers, Process Condensers, Process Eductors, Relief Valves (Atmospheric), Sample Coolers, Seal Coolers, Steam Condensers, Steam Jet Ejectors, Liquid Ring Vacuum Pumps, Vent Condensers & Vacuum System Surveys www.graham-mfg.com
- **Water Treatment Equipment** Exchange-service DI Systems, Dealkylizers, Demineralizers, Deaerators, Condensate Polishers, Continuous Blowdown Heat Recovery Systems, RO Systems, Pressure Filters & Validated Ultrapure Systems. From individual components to skid-mounted or weatherized container systems. DIY or Complete Turnkey Installations as Purchases or Rentals. Several pre-built systems in stock and ready to deliver. Refurbishment and upgrades of existing systems, water treatment design, troubleshooting, start-up, assembly, application, service, and water treatment system surveys. www.altairequipment.com

CVA Industrial is pleased to announce the addition of the following Industrial Equipment & Services with our affiliate partner, Kahl - Stetson Manufacturers Representatives:

Equipment	Companies	Manufacturer's Website
Acid Gas Wet Scrubbers	AirPol	www.airpol.com
Activated Carbon for T) Back-up	PCC Oxidation Technologies	www.pcc-group.com
Agitators	Cleveland Mixer	www.clevelandmixer.com
Air Heaters – Direct Fired	PCC Oxidation Technologies	www.pcc-group.com
Baghouse Control Systems	FilterSense	www.filtersense.com
Biofilters for HAP & VOC Removal	PCC Oxidation Technologies	www.pcc-group.com
Condensers & Vacuum Systems	Graham Manufacturing	www.graham-mfg.com
Cryogenic Heat Exchangers	Graham Manufacturing	www.graham-mfg.com
Data Center Lightning Protection	Lightning Eliminators	www.lightningprotection.com
Desuperheaters	Graham Manufacturing	www.graham-mfg.com
Dust/Particulate Sensors	FilterSense	www.filtersense.com
Expansion Joints Duct & Pipe	Hunter Expansion Joints	www.hunterexpansionjoints.com
Flares and Flare Systems	PCC Oxidation Technologies	www.pcc-group.com
Floating Roof Tank Lightning Protection	Lightning Eliminators	www.lightningprotection.com
Heliflow Heat Exchangers	Graham Manufacturing	www.graham-mfg.com
Hopper Level Sensors	FilterSense	www.filtersense.com
Hydrogenation Process Plants	Biazzi	www.biazzi.com
Lightning Protection Equipment	Lightning Eliminators	www.lightningprotection.com
Liquified Gas Vaporizers	Graham Manufacturing	www.graham-mfg.com
Lube Oil Coolers	Graham Manufacturing	www.graham-mfg.com
Mixers	Cleveland Mixers	www.clevelandmixer.com
Nitration Process Plants	Biazzi	www.biazzi.com
Process Condensers	Graham Manufacturing	www.graham-mfg.com
Process Eductors	Graham Manufacturing	www.graham-mfg.com
Relief Valves (Atmospheric)	Graham Manufacturing	www.graham-mfg.com
Regenerative Thermal Oxidizers (RTO)	PCC Oxidation Technology	www.pcc-group.com
Sample Coolers	Graham Manufacturing	www.graham-mfg.com
Seal Coolers	Graham Manufacturing	www.graham-mfg.com
Steam Condensers	Graham Manufacturing	www.graham-mfg.com
Steam Ejectors	Graham Manufacturing	www.graham-mfg.com
Thermal Oxidation – Direct	PCC Oxidation Technologies	www.pcc-group.com
Thermal Oxidation – Flameless	PCC Oxidation Technologies	www.pcc-group.com
Thermal Oxidation – Recuperative	PCC Oxidation Technologies	www.pcc-group.com
Vacuum Drying	Lödige Process Technology	www.lodige-pt.com
Vacuum Pumps – Liquid Ring	Graham Manufacturing	www.graham-mfg.com
Vacuum System Survey	Graham Manufacturing	www.graham-mfg.com
Vent Condensers	Graham Manufacturing	www.graham-mfg.com
Venturi Scrubbers	AirPol	www.airpol.com
